Legal Reference	EU REACH Directive Annex XIV (14) List of substances subject to Authorization - As of 1/12/2017
Summary	The authorization procedure aims to assure that the risks from Substances of Very High Concern (SVHCs) are properly controlled and that these substances are progressively replaced by suitable alternatives while ensuring the good functioning of the EU internal market. SVHCs may eventually be included in the Authorization List and become subject to authorization. These substances cannot be placed on the market or used after a given date, unless an authorization is granted for their specific use, or the use is exempted from authorization.
Scope	All articles entering the EU market. This includes all parts going into the article.
